ABOUT ME

Computer Science and Engineering undergraduate with a specialization in Machine Learning and a strong foundation in Python, Java, SQL, and web development. Passionate about Artificial Intelligence, Machine Learning,. Experienced in building academic projects involving web applications and machine learning. Actively learning Deep Learning, NLP, LLMs, and AI Agents while seeking internship opportunities to apply technical knowledge to real-world problems.

EDUCATION

course	college/school	university	pass out year	percentage
B.Tech(AI/ML)	Aditya Institute of Technology and Management	JNUTUGV, VIZIANAGARAM	2027	7.7
Intermediate	d.r.junior college, vishakaptnam	board of intermediate education ,Andhra Pradesh	2022	89%
SSC	keshava Reddy School ,Srikakulam	Board of Secondary Education Andhra Pradesh	2020	10.0

PROJECT EXPERIENCE

Leave Approval Management System (ServiceNow)

Technologies Used: ServiceNow, App Engine Studio, Flow Designer, Client Scripts, Workflow Automation

- Developed a Leave Approval Management System on the ServiceNow platform to automate employee leave requests and approvals.
- Created custom tables, forms, and modules using App Engine Studio.
- Designed and implemented automated approval workflows using Flow Designer.
- Configured role-based access control (RBAC) to ensure secure access for employees and managers.
- Integrated automated email notifications for leave requests, approvals, and status updates.
- Implemented client-side validation using Client Scripts to improve data accuracy and user experience.
- Streamlined the leave management process, enhancing efficiency, transparency, and workflow automation.

ServiceNow CSA & CAD Virtual Internship ServiceNow

| EduSkills May 12, 2026 to June 30, 2026

Completed hands-on training in ServiceNow Certified System Administrator (CSA) and Certified Application Developer (CAD) modules.

- Developed applications using App Engine Studio and automated workflows with Flow Designer.
- Created and configured tables, forms, client scripts, business rules, and access control mechanisms.
- Gained practical experience in workflow automation, IT Service Management (ITSM), and low-code application development.
- Strengthened knowledge of ServiceNow platform administration, application development, and enterprise workflow solutions.

Technologies:

ServiceNow, App Engine Studio, Flow Designer, Client Scripts, Business Rules, ACLs, ITSM.

TECHNICAL SKILLS

Programming Languages:

- Python
- Java

Database:

- postgresql

web development:

- Html
- Css

Tools:

- Git
- GitHub

- Machine Learning
- Deep Learning
- Natural Language Processing
- Data Analysis
- Data Preprocessing
- Feature Engineering
- Machine Learning Model Development
- Machine Learning Pipelines
- Model Evaluation
- Model Deployment.
- Scikit-learn

CERTIFICATIONS:

1. Anthropic AI Fluency: Frameworks & Foundations
2. Claude 101 by Anthropic
3. Introduction to Machine Learning - Infosys Springboard
4. Introduction to Deep Learning - Infosys Springboard
5. Java Programming Certification
6. Python Fundamentals Certification
7. completion fo certification postgresql:became a sql developer

ACHIEVEMENTS:

1. Participated in AI and Machine Learning workshops.
2. Built multiple academic projects in Machine Learning and Web Development.
3. Continuously learning Generative AI, LLMs, and AI Agents.
